Risk Warning: Past performance is not necessarily a guide to the future. The value of investments and the income from them may go down as well as up. Investors may not receive back their original investment. The Fund has a concentrated portfolio which means greater exposure to a smaller number of securities than a more diversified portfolio. Charges are not made uniformly throughout the period of the investment. This Fund invests in smaller companies and carries a higher degree of risk than funds investing in larger companies. The shares of smaller companies may be less liquid and their performance more volatile over shorter time periods. The Fund can also invest in smaller companies listed on the Alternative Investment Market (AIM) which also carry the risks described above. The Fund may invest in derivatives and forward transactions for the reduction of risk or costs, or the generation of additional capital or income with an acceptably low level of risk which is unlikely to increase the risk profile of the Fund significantly.
