Slater Investments

Manager Biography

Mark Slater co-founded Slater Investments in 1994 with Ralph Baber and is Chairman and Chief Investment Officer of Slater Investments. Mark chairs the Investment Committee. The company manages a hedge fund, two-unit trusts, two OEICs and portfolios for pension schemes, charities and high net worth individuals. He has also received top ratings from several well-known rating agencies. Prior to founding Slater Investments, Mark worked as a financial journalist with Analyst plc and the Investor's Chronicle. Also, in 1992, he helped research and edit a best-selling investment book "The Zulu Principle" for his father, Jim Slater, which focuses on identifying small to medium sized growth companies. During his career, Mark has served on the boards of four public companies in which he has been a substantial shareholder. Mark has a MA in History from Cambridge University.

Fund Objective

The investment objective of the Scheme is to achieve capital growth. The Scheme will invest in companies both in the UK and overseas but concentrating mainly or, where appropriate, exclusively on UK shares. Other investments including bonds, warrants and options, within the limits imposed by the trust deed may be used where it is considered that they meet the investment objective. It is also intended where appropriate to take advantage of underwritings and placings.

Risk Warning

Past performance is not necessarily a guide to the future. The value of investments and the income from them may go down as well as up. Investors may not receive back their original investment.

The Fund has a concentrated portfolio which means greater exposure to a smaller number of securities than a more diversified portfolio. Charges are not made uniformly throughout the period of the investment. This Fund invests in smaller companies and carries a higher degree of risk than funds investing in larger companies. The shares of smaller companies may be less liquid and their performance more volatile over shorter time periods. The Fund can also invest in smaller companies listed on the Alternative Investment Market (AIM) which also carry the risks described above. The Fund may invest in derivatives and forward transactions for the reduction of risk or costs, or the generation of additional capital or income with an acceptably low level of risk which is unlikely to increase the risk profile of the Fund significantly.
